The XXII Meeting of the European Tumor Virus Group

Innsbruck, Austria, March 5–9, 1997

The XXII Meeting of the European Tumor Virus Specialists will be held in Innsbruck, Austria, March 5–9, 1997. The meeting will deal with those viruses inducing immortalization and tumor development. It will include review talks on natural mechanisms important in controlling tumor development, such as suppressor genes and immune surveillance by antibodies and cells, such as T cells, NK cells, and macrophages. Gene therapy will also be dealt with.
